SCORPION

WINDOW FILM

ADHESIVE REMOVER

Scorpion Adhesive Remover quickly removes stubborn adhesive.

Features:

- Fast Action
- Breaks Down Adhesive
- Quickly Wipe Away Residue
- Low Cost
- Multiple Uses

For Porous Stickers/Decals/Film:

1. Generously spray apply Scorpion Adhesive Remover
2. Allow Adhesive Remover to soak into sticker/decals for several minutes
3. If working on glass, use a scraper blade to remove adhesive material. If working on non-glass surfaces use plastic squeegee or something similar to remove residue.
4. If any residue is remaining re-spray surface and repeat the process.

\$24.95

PER GALLON
PART #: SWC1

TGT026 NT Injector Cartridge Knife

Used for film pattern-cutting and trimming. Holds five blades for automatic blade replacement capabilities.

TGT027 NT Pro A-1 "Red Dot" Knife

Regarded by many installers as the finest professional knife available. The blade can be advanced in 1/2 segment increments for precision control. Right or left hand use.

TGT111 Auto Lock 8PT Knife

Heavy-duty knife with breakaway points for use with security films 7 mil or greater. Blade storage in handle.

TGT114 Olfa Pro-Load

Holds up to five blades at a time giving you 65 new cutting segments per load.

TGT124 Plastic Utility Knife

Used for film pattern cutting and trimming.

TGT126 Olfa "Silver" Stainless Steel Knife

The original Olfa stainless steel knife.

TGT127 Olfa "A" Knife

Used for film pattern cutting and trimming. Features a molded plastic handle for maximum control and comfort. Right or left hand use.

TGT226 Olfa "Silver 2" Auto-Lock Knife

Significantly improved over the original "Olfa Silver." Features right or left hand use, blade position auto-lock, and one-segment click-action.

TGT227 Olfa XA-1 Ergonomic Knife

The ergonomically correct knife features a comfortable rubber grip for better control and less fatigue.

TGT264 KDS L-22 Gripfit Autolock

Heavy-duty knife with comfortable grip. Use with any 8 pt blade (GT1021, GT131, or GT263) to cut window films 7 mil or greater.

TGT984 NT A-1000RP Knife

Cartridge cutter with aluminum die-cast grip. Cartridge holds up to 5 blades.

TGT1018 NT A250RP Knife

Chemical-resistant and heat resistant polypropylene grip. Ratchet Auto-Lock slider locks blade in place while cutting. Right or left hand use.

TGT1019 NT L500GRP Heavy Duty Knife

NT heavy duty knife with ratchet auto-lock slider which locks the blade into place while cutting. Blade storage in handle. Use with 7 mil or greater films.

TGT1051 Olfa SAC-1 S.S. Graphics Knife

Slim stainless steel body with a 30 degree angle blade for precision in pattern cutting. Great for graphics and paint protection.

TGT1054 NT A-300GR Aluminum Knife

All-purpose standard duty utility knife with stainless steel sliding holder and sturdy aluminum die cast grip for long lasting use. Ratchet Auto-Lock slider locks blade in place while cutting. End cap also functions as a blade snapper. Designed for either left or right handed use with simple reversal of blade.

TGT105 4" Scraper Blades

Fits the TGT104 and TGT1023. Carbon, pack of 10. (0.20mm x4")

TGT108 6" Triumph Carbon Blades

Carbon steel offers strong capable scraping that lasts longer than stainless steel blades but rust more easily. Use these blades for scraping adhesive and other debris from glass surfaces. Double edged for more scraping per package. These blades fit any of the standard 6" Triumph Scrapers. Pack of 25.

TGT108SS 6" Triumph Stainless Steel Blades

Long lasting rust resistant stainless steel blade. Perfect for removing adhesive and other debris from glass surfaces. The double edge blade offers you more scraping than other blades. Pack of 25.

TGT108SS-HD 6" Triumph S.S. Heavy Duty Blades

This rust resistant stainless steel blade is thicker and stronger than the standard 6" Triumph Stainless Steel Blades. A must have for those tough film removal jobs. A new product exclusively for the tinting industry. A must have for all residential and commercial installers. (0.20X6") Pack of 25.

TGT110 Heavy Duty Triumph Blades

Carbon replacement blades for the Red Heavy Duty Triumph Scraper (TGT105). This thicker blade (0.4mm) offers greater strength for those tough jobs. Pack of 10.

TGT112 Olfa LBB-50B UltraMax 8pt Blades

Replacement blades for TGT111, TGT264 & TGT1019 heavy-duty knives. Triple-honed for extremely sharp edge. Ideal for cutting thick films, 7 mil or greater. Pack of 50.

TGT115 Olfa AB-10S Stainless Steel Snap Blades

Pack of 10.

TGT116 Olfa AB-50S Stainless Steel Snap Blades

Pack of 50.

TGT123 Olfa AB-50B Carbon Snap Blades

Standard carbon snap blades with superior sharpness and edge retention. This 9 mm blade fits most standard duty knives and has 13 cutting edges per blade. Pack of 50.

TGT128 Ceramic Safety Film Cutter

Designed to deliver rapid, precise cuts for thick gauge safety films. It is intended for precision pre-cutting on flat, square-edged tables.

TGT131 8 Point Blades

18mm replacement blades. Fits TGT111, TGT264 and TGT1019. Pack of 10.

TGT137 Stainless Steel 1" Single Edge Blades

Use in any 1" blade holder. Stainless steel, uncoated. Pack of 100.

TGT139 Plastic Razor Blades

Perfect for removing leftover film and adhesive from surfaces that are easily damaged, such as rear window defrosters or other sensitive glass surfaces. Pack of 100 blades.

TGT140 1" Single Edge Blades

Used for film pattern-cutting and trimming. Holds five blades for automatic blade replacement capabilities.

TGT140-12 #12 Single Edge 1" Blades

Use in any 1" blade holder. #12 Carbon steel single edge blade, non-rust aluminum back. Pack of 100. (.012"/.3048 mm)

TGT211 3" Triumph Blades

Carbon, pack of 10. Use in the 3" Triumph Scraper (TGT210).

TGT262 KDS SB-50SH Stainless Steel Snap Blades

Pack of 50.

TGT263 KDSLB-50BH Power Black 8pt Blades

Ideal for thicker films, 7 mil or greater. Fits TGT111, TGT264 & TGT1019. Pack of 50.

TGT265 KDSSB-50SH-S Stainless Steel Snap Blades

Use for cutting automotive window film. Pack of 50.

TGT266 KDS SB-10SH Stainless Steel Snap Blades

Pack of 10.

TGT944 Automotive Glass Edge Trimmer

Use along the top edge of roll down windows for a precise "micro-edge" finish (1/8"). Use TGT137 (page 5) as a replacement blade.

TGT994 Big Blade (3" x 4")

Jumbo size plastic razor blade perfect for cleaning & film removal.

TGT1007 4" Scraper Blades

Fits the TGT104 and TGT1023. Carbon, pack of 100. (0.17mm x 4")

TGT1020 NT BA-50P Stainless Steel Snap Blades

Stainless steel snap blades from the makers of the "Red Dot" knife. Use in most standard duty knives. Pack of 50.

TGT1021 BL50P Blades

Heavy duty NT blades for use with the TGT1019, TGT111, & TGT264. Pack of 50.

TGT1031 Olfa UltraMax ABB-50B Carbon Snap Blades

An ultra-sharp carbon blade ideal for applications where superior sharpness is required. These blades are double-honed for extreme sharpness and are 25% sharper than the standard duty carbon blade. Eight cutting edges per blade. 50 blades per pack. Fits most standard Olfa knives.

TGT1052 Olfa A1160B Carbon 30 Degree Blades

Standard duty acute angle snap-off blade for use when precision is a must. Seven cutting edges per blade strip. Fits most standard duty knives. Pack of 10.

TGT2016 KDS GB-50BH POWER BLACK G-BLADE

The G-Blade is a double-honed extremely sharp 8 point blade that is ideal for cutting safety and security film. Fits TGT111, TGT264, & TGT1019. Pack of 50.

TGT2023 Scraperite Plastic Razor Blades

These plastic razor blades are double edged and safe for glass. Great for removing adhesives from window films and vinyl decals. Pack of 100 blades.

TGT104 4" Scraper with Extended Handle

4" scraper with extended handle allowing for better leverage. Use with TGT105 or TGT1007 as replacement blades. Blade cover included.

TGT106 6" Red Heavy Duty Scraper

Ideal for film removal. Includes cover and one double-edged blade. Use TGT110 (page 4) as replacement blades.

TGT107 6" Triumph Scraper

Lightweight and maneuverable. Includes cover and one double-edged blade.

TGT107A 6" Angled Triumph Scraper

The handle is tilted at a 30 degree angle. Includes cover and one double-edged blade.

TGT107PC 6" Triumph Scraper with Slide Cover

This is the new and improved version of the slide covered Triumph. With a bigger button and smoother action, the cover easily opens and closes with no hassle. No more fumbling with a separate blade cover while doing ladder work. Great for regular window cleaning, but not recommended for stripping off old film.

TGT109 1" Clip Scraper

TGT109S 1" Clip Scraper w/Thumb Screw

These effective scrapers will accommodate standard or stainless steel single edge blades as well as TGT139 plastic razor blades. Try the Li Chizler in these handles for more leverage.

TGT138 Heavy Duty 1" Razor Scraper

Retractable safety scraper; intermediate blade position keeps the blade from sliding out while in use.

TGT138 HYDE Hyde 1" Razor Scraper

TGT210 3" Triumph Scraper

Smaller version of the regular Triumph. Designed to fit perfectly into corners.

TGT212 1" Neon Mini Scraper

TGT983 6" Ergonomic Triumph Scraper

An improved version of the standard 6" Triumph scraper with rounded corners for a more comfortable grip. Includes cover and one double-edged blade.

TGT983A 6" Angled Ergonomic Triumph Scraper

An improved version of the standard 6" Triumph scraper with rounded corners for a more comfortable grip and tilted handle. Includes cover and one double-edged blade.

TGT1023 AL PRO 4" Stripper

This 4" scraper has an adjustable head as well as an adjustable knob for two handed use. Blades can be stored inside the handle.

SCORPION WINDOW FILM

Handled Squeegees

TGT034 Whale Tail Squeegee

Great for getting behind brake lights and back window applications.

TGT035 - WHALE TAIL REPLACEMENT BLADE
TGT036 - WHALE TAIL HANDLE

TGT040 Slim Foot

Modeled after the Big Foot Squeegee, the Slim Foot has a slender design that can reach into tighter openings. This no rib squeegee helps reach behind brake lights and has a rubber grip for secure handling. Measures 15" from blade tip to handle end.

TGT041 8" Silver Security Squeegee Blade

Standard replacement blade for TGT042.

TGT042 8" Silver Security Squeegee

Comfortable, ergonomic handle is designed especially for security film installation. Comes equipped with the TGT041 blade. Curved handle applies more pressure to surface, reducing fatigue and ensuring easier, better installations. Blade is replaceable with either the Security Squeegee (TGT041), Flatfoot (TGT059), Pro Squeegee (TGT061), or Orange Crush (TGT259) blades.

TGT043 Big Foot

Specifically designed to remove water from the lower portion of rear windows. Features a flex-firm blade molded right into the long flattened tennis racquet-style handle. The handle is wrapped with genuine Head Softac traction grip material. Reaching the lower deck of back windows is not a problem with Big Foot. This tool measures a full 15" from blade tip to handle end.

TGT045 140" Squeegee Blade

TGT048 12" Squeegee Blade

TGT049 18" Squeegee Blade

Replacement blades for Unger squeegee channel. Use for window cleaning, not installation.

TGT050 Unger Pro Handle

For use with the TGT053, TGT054, TGT055 or TGT056 stainless steel channels with black rubber for cleaning or blue replacement blades (TGT118) for installation.

TGT050E Unger ErgoTec Handle

Features a spring mechanism for quick blade changing and a finger indent on top of handle for complete control. For use with the TGT053, TGT054, TGT055 or TGT056 channels with black rubber for cleaning or blue replacement blades (TGT118) for installation.

TGT053 6" Squeegee & Channel

TGT054 8" Squeegee & Channel

TGT055 12" Squeegee & Channel

TGT056 18" Squeegee & Channel

Stainless steel channel and soft rubber squeegee blade insert for use with the Unger Pro Handle (TGT050 or TGT050E). Used in the flat glass cleaning process and in the

TGT059 8" Flatfoot Squeegee Blade

Specially angled blades for the Pro Squeegee (TGT062 or TGT064). The angle is designed to maximize the surface area in contact with the film, thereby removing much more mounting solution than a standard Pro blade with a square edge.

TGT061 8" Pro Squeegee Blade

Replacement blade to Pro Squeegee (TGT064 or TGT062) used as a means of removing application solutions from beneath the film during the installation of all flat glass film types.

TGT062 6" Pro Squeegee Deluxe

An installation squeegee as a ready-to-use assembly. Used to remove application solution during the installation of all flat glass film types.

TGT063 6" Pro Squeegee Blade

Replacement blade to Pro Squeegee (TGT064 or TGT062) used as a means of removing application solutions from beneath the film during the installation of all flat glass film types.

TGT064 8" Pro Squeegee Deluxe

An installation squeegee as a ready-to-use assembly. Used to remove application during the installation of all flat glass film types.

TGT069 6" Flatfoot Squeegee Blade

Specially angled blades for the Pro Squeegee (TGT062 or TGT064). The angle is designed to maximize the surface area in contact with the film, thereby removing much more mounting solution than a standard Pro blade with a square edge.

TGT117 Blue Max 5" Hand Squeegee

Installation squeegee for automotive and flat glass applications. Harder than TGT203; great for water excavation.

TGT117A Angled Blue Max 5" Hand Squeegee

Installation squeegee for automotive and flat glass applications. Harder than TGT203, these tools are excellent for water evacuation.

TGT117B Square Blue Max 5" Hand Squeegee

Ideal for installing security film.

TGT117C Square Blue Max-Narrow

Replacement Blade for TGT1006 Thor's Hammer

TGT117-8 8" Blue Max Squeegee

The favored Blue Max installation squeegee is now available in 8" making it perfect for flat glass installs! Use this blade in the 8" Fusion Handle (TGT1046) for great water extraction.

TGT118 Blue Squeegee Refill (6, 8, 12, 18 or 120" roll)

Use in the Unger squeegee channel as a finishing squeegee for maximum water removal. Replacement blade for TGT207

TGT122 Blue Max Squeegee with Handle

TGT203 Super Clear Max Squeegee Blade

TGT203A Angled Super Clear Max Squeegee Blade

Softer version of the Blue Max Squeegee, more flexible for back window installations.

TGT204 Super Clear Max Squeegee with Handle

Ready-to-use installation squeegee. The specially modified Unger handle makes these installation squeegees must haves. The handle is not sold separately but replacement blades are available as part number TGT203A and or TGT117A. For extra leverage, use with a TGT030 Motus D Grip.

TGT205 The Bulldozer I - Automotive

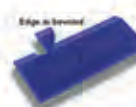

TGT206 The Bulldozer II - FLAT GLASS

Allows you to get to those hard to reach areas, such as behind speakers, brake lights, low angles and rear windows. Features a 6" squeegee blade and is 15" in overall length. Bulldozer II features reinforced ribs for extra rigidity and leverage.

TGT207 Side Swiper with Blade

TGT208 Side Swiper Handle Only

A great tool for the lower edge of rear windows and behind brake lights. Use TGT118-6 as a replacement blade.

SCORPION WINDOW FILM

Handled Squeegees

TGT257 5" Orange Crush

TGT258 5" Cropped Orange Crush

TGT259 8" Orange Crush

These blades help expel water while keeping their strength. The 5" Cropped Orange Crush conforms to curved glass. Blades can fit into a handled grip (TGT1046, TGT1047 or TGT1058) or can be used alone.

TGT985 Performax Handle

Ideal for water extraction when used with TGT117, TGT117B, TGT203 or TGT257. Features a socket that accepts standard broom or paint roller extensions. This allows installers to get more leverage.

TGT1001 Unger 42" Hard Replacement Blade

Hard replacement rubber is ideal for warmer working conditions and for optimum liquid removal on large, flat surfaces.

TGT1006 Thor's Hammer

Use for 6-mil+ safety film installations, and final pass on slow drying thin films. (Flat Glass Applications). Use TGT117C as a replacement blade.

TGT1022 Stroke Doctor

Designed with an I-beam construction handle that features an ergonomic slip-resistant grip and longer blade to apply squeegee pressure more evenly in the most hard to reach places.

TGT1022B Stroke Doctor Replacement Blade

TGT1042RED Titan Squeegee

The overall length is 14 3/4" which allows a longer reach, has a rigid structure for more water removal, and its unique design will easily lift inner and upper door seals.

TGT1046 8" Fusion Handle

Ideal handle for all residential and commercial applications. Holds the 8" Orange Crush Squeegee Blade (TGT259) and 8" Blue Max Squeegee Blade (TGT117-8).

TGT1047 5" Fusion Handle

TGT1058 5" Fusion Handle-Short Handle

These handles are designed to optimize your leverage in removing mounting solution. Great for high performance automotive films and smaller residential windows. These handles accommodate the 5" Orange Crush Squeegees (TGT257 or TGT258 above) and the 5" Blue Max (TGT117) and Clear Max (TGT203) Squeegees.

TGT2056B Go Doctor Blue

TGT2056Y Go Doctor Yellow

TGT2056R Go Doctor Red

A fully integrated squeegee system where all of the components have been designed together, to work together. The I-beam handle fits comfortably in your hand. The I-beam handle is wrapped with a comfortable, non-slip material that provides secure grip. Go Doctor incorporates a quick-change blade system for speedy on the job replacements.

TGT2057B Blue Go Doctor Blade(Firm)

TGT2057Y Yellow Go Doctor Blade(Flex-Firm)

TGT2057R Red Go Doctor Blade(Soft)

TGT2057B - Use for window film and auto wrap installs.
TGT2057Y - Use for window film, auto wraps, vinyl graphics and paint protection installs.
TGT2057R - Use for window film, auto wraps, vinyl graphics and paint protection installs.

Tube Squeegees

TGT119 4" Black Smoothie Tube Squeegee

TGT120 9" Black Smoothie Tube Squeegee

TGT121 28" Black Smoothie Tube Squeegee

Soft black squeegee with gray pvc handle.

TGT145

18 1/2" Yellow Turbo Squeegee

Used for removal of application solution during the installation process. You can cut the blade down to smaller lengths if desired.

TGT145S

18 1/2" Soft Dk. Yellow Turbo Squeegee

A soft installation squeegee used to remove application solution during installation of all auto and paint protection films.

TGT146

28" Black Smoothie Blade Only

Squeegee tool used for glass cleaning, sometimes called the "Smoothie." Economy size (28") usually cut to shorter lengths before use.

TGT147

18 1/2" Yellow Turbo Squeegee Blade

Used for removal of application solution during the installation process. You can cut the blade down to smaller lengths if desired.

TGT147S

18 1/2" Soft Dk. Yellow Turbo Squeegee Blade

A soft installation squeegee used to remove application solution during installation of all auto and paint protection films.

TGT150 18" Red Turbo Blade

TGT152 5" Red Turbo Blade

The hardest version of the Turbo Blade, used for removal of application solution during the installation process.

TGT235 5 1/2" Yellow Turbo Squeegee

TGT236 5 1/2" Yellow Turbo Squeegee Blade

An installation squeegee used to remove application solution during installation of all auto and paint protection films.

TGT1026 3 1/2" Soft Dk. Yellow Turbo Squeegee

A soft installation squeegee used to remove application solution during installation of all auto and paint protection films.

TGT2004

18 1/2" Green Turbo Blade

The green turbo is perfect for paint protection installs, can be cut down to smaller sizes, and has a durometer (hardness) between the GT146 Black Smoothie and the GT147 Yellow Turbo Blade.

TGT2053 4 1/2" Green Turbo Blade

The green turbo is perfect for paint protection installs and has a durometer (hardness) between the TGT146 Black Smoothie and the TGT147 Yellow Turbo Blade.

New

Squeegee Essentials

TGT032Y Tail Fin Yellow (Firm)

TGT032G Tail Fin Green (Soft)

Great for getting behind brake lights and back window applications. Finger holes make holding onto the Tail Fin easy.

TGT044 Little Foot Blue, Red, Black

This tool fits comfortably in your hand and features an angled, long-reach tip that gets behind gaskets and rubber seals easily. This squeegee measures about 6" (15 cm) along the usable edge. The pointed edge of this tool allows the installer to squeegee in very tight areas.

TGT060 EZ Wing Lime

The new EZ Wing Lime Squeegee Reach Tool offers all of the benefits of a traditional triangle squeegee tool, but offers some new features as well.

TGT066 6" Clear Super Squeegee

Ideal for general purpose smoothing as well as pressure smoothing. The consistency of the material produces great results with minimal effort.

TGT067 3" Clear Super Squeegee

Works best on corners, edges and bubbles allowing maximum pressure to be applied with minimal risk of damage to your work.

TGT068 Hard Card Sharpener

A must have to keep hard card and other squeegee edges smooth. Simply slide the squeegee edge along the tray to smooth out rough edges. Uses a 1" single edge blade.

TGT083

Lil Chizler

TGT083 YELLOW

Yellow Dura Chisel

TGT083W

White Chizzler

Ideal for removing decals, film or adhesive from sensitive surfaces. Use for pressing down small film creases or air bubbles. The White Chizzler is slightly larger, has thicker edges and is harder than the original pink "Lil Chizler".

TGT088 Bondo Squeegee

Flexible and soft card style squeegee. Great for third brake light installs.

TGT091 Slammer

Used for cleaning corners and along gaskets, wicking water out along borders and easily reaches rear windows.

TGT092 Shuttle

A hard card with the ability to reach into tight areas located at the bottom edge of rear window glass.

TGT113WHITE White Diamond Tip (Hard Flex)

TGT113YELLOW Yellow Diamond Tip (Firm Flex)

Designed to meet the challenge of hard-to-reach areas, with square edges and 20 degree angled corners on both sides. The raised area in the center gives you a secure, slip-resistant grip, even when wet. Made of a high heat-resistant material.

TGT148 6" Block Squeegee

TGT149 12" Block Squeegee

Combination squeegee/hard card used for finishing during film installation. Can be cut to various angle shapes to reach tight, sharp corners.

TGT151 Quick Foot

If you like the Original EZ Reach, you are going to love Ultra! It is exactly the same except the hole has been removed to make it stronger and the top has been trimmed down to give installers yet another handy angle to work with. Designed specifically to get at the corners of quarter glass windows, you will also reach for it again and again to put down those little corners of film in hard to access areas.

TGT200 EZ Reach Ultra Gold (Firm Flex)

TGT200PLT EZ Reach Ultra Platinum (Hard Flex)

NT heavy duty knife with ratchet auto-lock slider which locks the blade into place while cutting. Blade storage in handle. Use with 7 mil or greater films.

TGT201G Green Contour (Soft Flex)

TGT201Y Yellow Contour (Firm Flex)

TGT201PLT Platinum Contour (Hard Flex)

Gives you curves where you need them. Designed to match all those concave surfaces installers see every day. A great fit for window film, paint protection or vinyl installs. The Contour hugs surfaces evenly while spreading radial pressure outward for quick film adhesion. The elongated triangular shape gets in to all those hard to reach areas.

TGT202 The Conquerer Squeegee

TGT202B The Blue Conquerer Squeegee

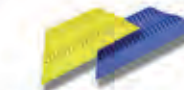

The Conquerer is the original corner reach tool. Features a soft squeegee blade along one edge and pointed hard card tips on the ends making it a versatile staple to any tool kit. Use the Blue version for a harder blade.

TGT254 Power Stroke Yellow (Soft Flex)

TGT256 Power Stroke Blue (Hard Flex)

The original hand held molded squeegee, designed to fit comfortably in your hand. Measures 5.7" from tip to tip. Blue has a durometer for the ultimate in moisture removal, especially for sputtered films. Yellow works well with dyed films and first pass on metal films.

TGT995 White Knight Squeegee

Large squeegee with narrow handle allowing for better reach.

TGT1025PLT Rebel-Platinum (Hard Flex)

A hybrid of the bump card and Diamond Tip. Great as an applicator or use as a trim guide on flat glass. Rebel has a unique diagonal shape, reaching corners easily. The parallel grip ridges make holding onto the Rebel easy and they are available in two flex ratings to cover a multitude of installation needs.

TGT1049 Gator Blade I

TGT1050 Gator Blade II

The Gator Blade I and Gator Blade II products are alternatives to the Lil Chizler. Each has a unique shape to give you a better grip making it easier to apply pressure.

TGT1070 Platinum Smart Cardz

The modern version of the hard card squeegee, only better! 25% wider than a hard card, with a tapered tip, comfortable grip and thin squeegee edge make it the smartest tool in your apron. Great for sliding under gaskets and seals. Use Smart Cardz anywhere you would use hard card squeegees.

TGT2003 Original EZ Reach Gold (Firm Flex)

TGT2003PLT Original EZ Reach Platinum (Hard Flex)

Stop cutting down hard card squeegees and use this versatile tool instead. These triangular cards with flat edges are perfect for putting down those little corners of film in hard to access areas. The gold version is flex-firm while the platinum offers a hard card texture with internal lubrication technology to help prevent scratching.

TGT2042 Tri-Edge Blue - Orange - Yellow

Its patented design high quality material makes this tool one of a kind. Its precision angles and comfort grip will allow the user to reach those challenging areas to achieve perfection. This tool has been analyzed and closely inspected to ensure that the finish is smooth, no more rough edges.

TGT2043 Tri-Edge Plus

We have replaced the hard edge with a rubberized heat resistant material that will serve as a water squeegee. The rubberized blade was carefully designed to create a dry line on the glass at the bottom of the film. Our design team has found the solution to help prevent dusty water from returning to any open bubbles.

TGT2063 Tri-Edge X Blue, Orange, Yellow

Tri-Edge X is a new larger size of the TGT2042. The angles have been recalculated and extended into a bigger tool. All of the durability and quality of the Tri-Edge tool is now made to make those deep gaskets and hard to reach spots more accessible.

Paint Protection - Wraps - Vinyl & Graphics

TGT153 Grip N Glide Orange & Yellow

New Grip-N-Glide combines an ergonomic hand grip with high performance, interchangeable blades to give you just what you need for tint, wrap and PPF installations.

TGT154 Grip N Glide Blades

Unlike tube squeegees with their belt-sanded round edges, the Grip-N-Glide features a .24" thick squeegee blade with French edges that are machine milled for maximum water extraction.

TGT1000 MACTAC Felt Squeegee

Recommended for paint protection or vinyl graphic installations. The soft felt is designed to avoid scratching.

TGT1010 3M Wet or Dry Squeegee

Soft rubber card style squeegee. Recommended for paint protection installations.

TGT1064 4" Bump Card with Felt Edge

Four inch hard card with two ridges or "bumps". One edge is wrapped in felt.

TGT1065 4" Lidco Felt Sleeve

A felt wrap for any 4" hard card squeegee.

TGT1085 Mango Pro Pack with Felt

Includes one each TGT2005, TGT2006, TGT2007 & TGT2008

TGT2002 4" Magnetic Black Bondo

Magnetic bondo squeegee is great for the application of car wraps, cutting window film patterns, and vinyl graphics. The strong magnets allow you to hold the material in place in addition to holding your knife for easy access.

TGT2005 Mango Smart Card with Felt

Smart Cardz are the modern version of the hard card squeegee but they're better because they are 25% wider and their tapered tip, comfortable grip, great flex and thin squeegee edge make it the smartest tool in your apron! Smart Cardz feature a grip-handle molded right into its body so they're easy to manipulate. The felt edge makes this the perfect tool for paint protection, vinyl signs and graphics.

TGT2078 PPF Knifeless Tape

Create your own PPF patterns with this 5MM wide, ultra fine, ultra sharp filament sandwiched between two tapes plus a cover tape. 50M X 164' Roll

TGT2006 Mango Rebel with Felt

Card squeegee with good angles that extends your area for better manipulation. Great for getting behind gaskets and rubber seals. The felt edge makes this perfect for paint protection, vinyl signs and graphics.

TGT2007 Mango Little Foot with Felt

This squeegee measures about 6" (15 cm) along the usable edge. The pointed edge of this tool allows the installer to squeegee in very tight areas. The Little Foot has plenty of room to keep a good grip on the squeegee.

TGT2008 Mango Bump Card with Felt

48" Mango Bump Card with extreme glide felt edge treatment.

TGT2017 Finish Line Knifeless Tape

The Knifeless Tape has a high strength filament that creates a clean sharp cut without the risk of damaging painted surfaces.

TGT2021 (TGT2021-4) Slip Tape

Slip tape is the ultimate product for making your application squeegees smoothly and safely glide across window film, paint protection, car wrap and vinyl graphic applications. Avoid tearing or scratching the material you are working with. Include this product in your tool box! 3/4" x 12yd. per roll.

BPOP Bubble Popper Pen

The Bubble Popper Pen is a must have tool for any vinyl graphics installer or car wrapper. This tool is used to put a pin hole (never a knife slit) into your vinyl, printed graphics or car wrap where a bubble or rivet might be to release the air and flatten the film graphic on to the substrate.

ER1 Emblem Removal Tool

The ER1 Emblem Removal Tool is the fastest and easiest way to remove vehicle emblems and logos from a vehicle.

IPEN Installer's Primer Pen

Introducing the Adhesive Primer 94 Installer's Pen (IPEN), the world's best application tool specifically designed using Primer 94.

RB Rivet Brush

Made of stiff bristle synthetic fiber, the rivet brush for fleet graphic installers helps form flexible cut and printed vinyl over the rivet surface.

SC2 (SC50) Sooper Clip (2 or 50 Pack)

Faster and easier than tape or rubber bands. These brightly colored Sooper Clips are designed for efficiency. Keeps vinyl and print media properly wound.

WCBLADE Replacement Blade for WCKNIFE

This is the replacement blade for the Wrap Cut Knife, WCKNIFE. Each blade has 4 available cutting edges. 10 blades per pack.

WCKNIFE Replacement Blade for WCKNIFE

The ultimate Vehicle Wrap knife! The Wrap Cut Knife by Image 1 Impact is made specifically to cut through just the liner side of any pressure sensitive vinyl graphic and wrap film. This knife will only cut through the paper release liner of the vinyl, so there is no more risk of damaging your film or adhesive or cutting through the film side of your vinyl while on its backing paper, and all brands of pressure sensitive vinyls and release liners.

WES Wet Edge Squeegee

Wrap your vehicles faster and better. The only squeegee applicator made to use wet. No scratches, no marks, just smooth motions that easily glides across vinyl films and painted surfaces without worry of mistakes or damage. The Wet Edge Squeegee is a Teflon squeegee with a unique microfiber bonded to it. Can be used either wet or dry. This is the top of the line applicator in the business. Colors will vary.

WG1 Wrap Glove

The new vehicle wrap glove is sold in pairs and is a must have for anyone installing vinyl graphics and vehicle wraps. Installing with your bare hands can cause over stretching and puckering of the vinyl as well as potential damage from the transfer of oils on your skin. These lint free and durable Wrap Gloves reduce friction while handling the material give you great results every time.

XMH (XMH6) Xtreme Magnet (1 or Six Pack)

These handy body magnets make applying vinyl and vehicle wraps faster and easier by acting as another hand to hold the material. You can also use them in the place of masking tape or pre-mask to position the material on the vehicle. Xtreme Magz are 1 5/8" in diameter and come with the magnet completely covered with a super-soft rubber coating to eliminate any damage to the vehicle, graphics or sign substrates.

TGT079 4" 3M Gold Squeegee

TGT080 4" 3M Blue Squeegee

TGT086 White Hard Card Squeegee

TGT086BLK Black Hard Card Squeegee

TGT086BLU Blue Hard Card Squeegee

TGT086GLD Gold Hard Card Squeegee

TGT086PINK Pink Hard Card Squeegee

TGT086PLAT Platinum Hard Card Squeegee

TGT086PURPL Purple Hard Card Squeegee

TGT086-6Y 6" Yellow Hard Card Squeegee

TGT086-6W 6" White Hard Card Squeegee

TGT087 Yellow Lidco Squeegee

TGT087 GRAY Gray Lidco Squeegee

TGT087-6 GRAY 6" Gray Lidco Squeegee

TGT099 Universal Squeegee

TGT2072 Lime Speed Wing (4", 6", 8")

TGT2076 Lemon Speed Wing (4", 6", 8")

TGT 2077 Cherry Speed Wing (4", 6", 8")

The Speed Wing is designed with "wings" to enable the installer to reach areas typically out of the reach of most bump, bondo, teflon and hard cards. The Speed Wing comes with one flat edge and one curved edge.

SQ4G Gold Nylon Blend Squeegee

SQBUFF4 4" Buffer Squeegee

SQBUFF4 Green Soft Flex Squeegee

TGT821 Blade Holder for TGT822

Blade not included.

TGT822 72" Box Slitter Channel

72" aluminum U-channel for sliding over the edge of a film box-top to serve as a straight edge when making horizontal cuts (across the web width) after pulling film out to desired length. Handy for in-field work. Saves the cost of more expensive film cutters. Blade Holder sold separately.

TGT910 60" Film Handler

TGT911 72" Film Handler

The TGT910 or TGT911 Film Handler comes standard with 2 each Cutter Head Assembly (TGT912), 2 each 3" Roller Assembly (TGT904) and one pack of blades (TGT943). LADDER NOT INCLUDED

TGT940 Film Handler Repair Kit

TGT941 Film Handler Shim 1/8" Thick 3" Hub

TGT942 Film Handler Shim 1/4" Thick 3" Hub

TGT943 Film Handler Replacement Blades

20 blades per cartridge.

TGT1002 Clean Cut Box Slitter

The Clean Cut allows for precise cuts, and minimizes waste and saves valuable time. Lightweight, portable and easy to use. The bars are available as standard in 36", 48", 60" or 72". Additional sizes of 18", 24", 30", and 40" are available as special order. Features both imperial and metric measurements. Cutter head sold separately.

TGT1002CH Clean Cut Cutter Head Assembly

Cutter head assembly for the clean cut box slitter. The cutter head is held in place by a magnet making moving it along the bar easy and quick.

TGT1002T Clean Cut Box Tray

Allows film boxes to be mounted on top of a ladder. Simply attached the tray to the top of your ladder using the eyebolt that is supplied creating a steady work surface.

TGT1002B Clean Cut Replacement Blade

5 blades per pack.

TGT1002WM Film Wall Mount

Allows you to mount your Clean Cut Box Tray to the wall in your shop. Use any 1/8" screw to attach the brace to the wall and the eyebolt for the TGT1002T to anchor the tray to the top of the wall mount.

TGT904 3" Roller Assembly

Standard roller assembly on Film Handler. These are 6" risers and will accommodate film on 3" cores. Sold as a pair (2).

TGT912 Film Handler Cutter Assembly

This is the base and the swivel head of the blade holder on the Film Handler.

TGT912 6" Roller Assembly

Use for security film on 6" cores. Comes with 12" risers to accommodate the larger cores. Sold as pairs (2)

TGT913 Film Handler Blade Holder

The swivel head portion of the blade holder.

TGT941 1/4" Cutter Shim for 6" Hubs

TGT942 1/8" Cutter Shim for 6" Hubs

SCORPION

Installation Accessories

TGT030 Motus D Grip Handle

Use with almost any handled squeegee to give extra leverage.

TGT033 Red Devil Squeegee

Flexible squeegee that is great for tight corners and maneuvering around gaskets.

TGT130 Gasket Wizard

This device is used to carefully pull back gaskets for easy film-to-glass installations below the gasket. Rub rails are located at the base of all automotive door window glass and are used for weatherproofing the openings between the glass and the door structure. Many installers find the Gasket Wizard helpful, even without the use of the bungee cords.

TGT132 Hook Tool

Use this tool to pull back on rubber gaskets in auto doors to tuck film below the seal.

TGT134 BLADEater Replacement Well

Replacement well for BLADEater.

TGT135 BLADEater

Designed for professional installers, the BLADEater holds your knife safely and securely, and allows you to easily snap and discard blades into the replaceable well. Once the well is full, simply toss the well, blades and all.

TGT176 WaistApron

Heavy duty waist apron for easy access to tools while on the job.

TGT194 Gasket Push Stick

DOTRIX Dot Matix Cover

Gives the dot matrix area on cars a smooth finished look. Pressure sensitive adhesive requires no heat shrinking. The roll size is 16"x50".

MOLD5 Molding & Trim Removal Tools

The kit includes five distinctive tools for the easy removal of body fasteners, interior trim pieces, exterior body moldings, wheel hub caps, etc. Made from heavy-duty plastic to prevent scratching and damage to vehicle surfaces.

MOLD11 Molding & Trim Removal Tools

The kit includes eleven distinctive tools for the easy removal of body fasteners, interior trim pieces, exterior body moldings, wheel hub caps, etc. Made from heavy-duty plastic to prevent scratching and damage to vehicle surfaces. Comes with carrying case.

TGT250 Wagner HT3500 Digital Heat Gun

This model allows you to heat shrink in low or high fan speeds and has a variable temperature setting to fine tune the amount of heat needed for a specific application.

TGT251 Wagner HT1000 Heat Gun

Standard heat gun with high, medium, low settings. (120 volt)

TGT921 Jiffy Steamer J2W Film Remover

Impact resistant, with a 1300 watt heating element and heats up in two minutes with 2 hours of steaming perfilling. Great for removing film and adhesive from vehicle rear windows. (120 volt; alternate voltage available upon request).

TGT921B Jiffy Steamer J2W Replacement Fuse

TGT921C Jiffy Steamer J2W Replacement Bottle

Replacement bottle for the J2W Jiffy Steamer (TGT921).

TGT961 I.G. Thickness/Gap Gauge

TGT979 Kevlar Heat Gloves (Pair)

Heat resistant gloves great for use during heat shrinking.

TGT1004 OLFA DC4 Blade Disposal

Blade disposal unit that can be emptied and reused.

TGT1080 Ergodyne Waist Apron

(Special Order) 13 pocket tool apron.

TGT2015 Jiffy Steamer J4000W SteamBlade

The J4000W has a large 1 gallon internal water reservoir and provides 2 hours of continuous steam before refilling. Quick 15 minute heat-up time. Go from PREHEAT mode to full steam power in just two minutes. Has a flexible 7.5' hose for easy maneuverability on the job and an angled 9" aluminum steam head concentrates steam into a targeted area for precise removal. Steam-resistant nitrile gloves included in each unit. (120-volt; alternate voltage available upon request).

TGT157 1/2" Black Out Tape - 150' Roll

TGT158 1" Black Out Tape - 150' Roll

TGT159 1.5" Black Out Tape - 150' Roll

Black matte vinyl used to hide light gaps along edges of film installations.

TGT075 Yellow Film Marker

Handy for 3 basic purposes: 1) marking film prior to installation of windows with unusual shapes (arches, trapezoids, etc.) which must be cut to approximate shape before the final "lay-up"; 2) circling a contaminant (hair or fiber) before pulling back the film to remove it; 3) marking film edges to check for glass movement on side roll-ups during the trimming process. Yellow grease mark easily wipes away.

TGT076 Film Opaquer Pen - Thin Point

TGT077 Film Opaquer Pen - Broad Point

Used by installers to hide fine line mistakes in trimming which causes light intrusion at the film edge.

TGT078 3/4" Black Acrylic Felt - 50' Roll

Helps reduce scratching of automotive films on some vehicle roll down windows.

TGT078-75 1.5" Black Acrylic Felt - 50' Roll

Helps reduce scratching of automotive films on some vehicle roll down windows.

TGT182 36" Straight Ruler

TGT183 18" Straight Ruler

Imperial measurements including 1/8ths & 1/16ths.

TGT186 8" Triangle

30/60 degrees with circle templates.

TGT187 12" Triangle

45/90 degrees with circle templates.

TGT190 Gray 5-Way Trim Guide

TGT190BLACK Black 5-Way Trim Guide

TGT190WHITE White 5-Way Trim Guide

Use these tools as a trim guide or wrap in paper towels and use as a bump tool. Each of these offers unique shapes and corners. The TGT190 White even features a ruler.

TGT191 The Edge Tool

A convenient trim guide or use the curved edge to pull back gaskets.

TGT972 Digital Tape Measure

This compact meter uses a narrow beam to measure distances instantly, even through door openings and in crowded rooms. Lifetime lithium battery included.

TGT981 Do Not Roll Down Stickers (1000/Roll)

Perfect as a reminder on new auto installs. Features low-tack adhesive.

TGT990 3/8" Red Film Tape

TGT991 1" Red Film Tape

Features low-tack adhesive. Use to retape film rolls for storage. 60.1 yards per roll.

TGT1096 Do Not Roll Down Tape

Approximately 200 stickers per roll.

New

TGT090 Spraymaster Bottle & Trigger

An overall heavy duty sprayer, this spray bottle comes with a 5 year manufacturers warranty and is chemically resistant. It is equipped with a strong trigger and holds 32 ounces.

TGT096 Polyspray 2

This pressurized spray bottle holds more solution than the 32 oz. bottles and reduces "finger-fatigue" eliminating the need for pumping while spraying via a simple trigger. Handy for large windows and long duration sprays. Has an adjustable spray nozzle. (1.25 liters)

TGT097 32oz. Bottle

Empty 32 ounce bottle only.

TGT098N Maxi Trigger Sprayer

An industry staple. Ergonomic trigger with high output and durability.

TGT101-H Replacement Spray Gun for TGT101N

Replacement nozzle for TGT101N.

TGT101-HG 25' Replacement hose and Spray Gun for TGT101N.

Replacement hose and nozzle assembly for 5 Gallon Stainless Steel Sprayer.

TGT101N Stainless Steel 5 Gallon Sprayer

Deluxe pressure sprayer holds up to 5 gallons of mounting solution in a stainless steel tank. Hose can reach up to 25' in length. Fill with solution and pressurize with air from any compressor. Curly, flexible hose reaches into cars or stretches to go up a ladder with you.

TGT102 Orange 3 Gallon Pressure Sprayer

Stores either window cleaner or application solution. Essential for those big commercial jobs. Long 13' hose allows great mobility and large capacity gives uninterrupted and fatigue-free installation.

TGT102-OP

Replacement Pump for BLACK 3 Gallon Sprayer. This pump is for the old style black tanks only.

TGT102-P

Replacement Pump for ORANGE 3 Gallon Sprayer.

TGT1008 Impact Jr. Pump-Up Sprayer

Pressurized spray bottle that holds 48 ounces and reduces "finger-fatigue" eliminating the need for pumping while spraying via a simple trigger. Has adjustable spray nozzle.

TGT1067 Mercury Pro + Trigger & Bottle

The next generation in spray bottles, the Mercury PRO + features viton seals and a double action pump that sprays both when you pull back and when you release the trigger giving you more liquid with each pull. This lightweight ergonomic trigger/bottle combo holds up to 1 liter (33 ounces) of fluid.

TGT2012 Nozzle for Pressure Sprayer

Replacement nozzle for the TGT102, 3 Gallon Pressure Sprayer.

TGT160 Film Guard- 19 oz

Highly recommended for use after film installations as a cleaner and polish. Helps reduce friction and condensation between film and rubber gaskets on roll-down windows.

TGT162P Easy Stripper II Adhesive Remover- Gallon

Used to soften adhesive left on glass. Ready to use.

TGT714 X-100 Application Solution- Gallon

Cleaning and application concentrate for most dry adhesives. The mild acid formulation makes this a great cleaning agent for glass contaminated with oil, grease or dirt. Recommended mixture is 1 ounce per 1 quart of water. Not to be used with copper or silver based films.

TGT715 Sprayway Glass Cleaner-19 oz

Ammonia free, film-friendly aerosol spray used for cleaning film surfaces after installation. Can also be used as an adhesive remover when left to soak.

TGT716 Plexus Plastic Polish-13 oz

Anti-static plastic polish, safe for all window films. Leaves behind a protective sheen on any plastic surface.

TGT733 Dirt-Off Concentrate

1 quart concentrate cleaning solution. Use for interior automotive window cleaning. Great for removing oily deposits on automotive glass. Dirt-Off can also be used as an adhesive accelerator to give additional tack for dot matrix areas.

TGT735 Film-On Concentrate

1 quart concentrate mounting solution. Use for pressure sensitive adhesives and sputtered copper films.

TGT1034 Dot Devil- 32 oz

A ready to use dot matrix prep solution. Use to aid film adhesion over dot matrix areas in auto installs.

TGT1035 Blue Slip Up- Gallon

Slip agent to aid in window film installation. Mix 8 ounces with 1 gallon water to serve as a conditioner or cleaner.

TGT1036 Simple Pink Adhesive Remover- Gallon

Adhesive remover. Can be used full strength or 2-3 parts water.

TGT1039 Rapid Remover- 32 oz

A non-toxic, water-soluble adhesive remover that breaks down and removes adhesive fast. Ready-to-use. Available in two sizes: Gallon or 32 ounce bottles.

TGT1040 Rapid Remover- Gallon

A non-toxic, water-soluble adhesive remover that breaks down and removes adhesive fast. Ready-to-use. Available in two sizes: Gallon or 32 ounce bottles.

TGT1041 Rapid Tac II- 30 oz

Great adhesive promoter even in cold weather conditions. A great solution for dot matrix areas or vinyl products.

TGT1071 Super Stripper Adhesive Remover- Gallon

A highly concentrated, ready to use adhesive remover.

TGT2010 Tint Off- Quart

Ready to use and specially formulated for the window film industry to make tint removal a snap.

TGT2013 Tint Slime- Gallon

Tint Slime is a window tint mounting & cleaning solution. Tint Slime can be used to install automotive window tint, paint protection film, flat glass film, and vinyl. Tint Slime is free of particulates and won't separate. Tint Slime is safe for use on interiors, biodegradable, and of course, tint safe. Concentrate; mix 1 ounce per 1 gallon of water.

New

Cleaning Accessories

TGT070 Low Lint Wipes

Center Pull Towels, 2 Ply, 8"x60", 660 sheets/roll, 3" core diameter.

TGT071 Virtually "Lint Free" Reusable Wipes

300' of cloth per box.

TGT072 Wipe Dispenser

For use with TGT070.

TGT085 White Scrub Pad

Great for cleaning windows prior to installation and prepping dot matrix areas.

TGT085THK 1" Thick Scrub Pad 4.5" x 10"

Great for cleaning windows prior to installation and prepping dot matrix areas.

TGT209 The Scrubber

Used to reach behind speakers and brake lights. Scrub away adhesive along the bottom edges of sloped rear windows. Uses replaceable standard White Scrub Pads (TGT085) cut 2" x 3". This tool is 3" by 15" long.

TGT1066 Copper Mesh Pad

The Copper Mesh Pad is for dot matrix prep ONLY! It will ABSOLUTELY scratch glass.

New

Testing & Display

TGT962 Heat Lamp Unit

Great tool for tabletop presentations. Replacement bulb (TGT1014) available upon request. (220 watt bulb, 120 volt usage)

TGT969 Toughened Glass Indicator

Used to determine which, if any, panes in a window unit are heat-treated. Knowing this allows use of films that would otherwise be inappropriate on regular annealed glass. Full set of user instructions and case included (120 volt).

TGT974 SOFT Professional Meter Sales Kit w/Case

Our UV & Solar Sales Presentation Kits offer a single source for convenient and convincing sales demonstrations. Kit includes: TGT968 Digital BTU & Trans-Meter, TGT962 Heat Lamp Unit, TGT973 UV Meter TGT963 U.V. Light Source Lamp TGT971 Soft Case with Strap

TGT975 StrenTGThened Glass Detector

Allows users to confirm if glass has been strenTGThened. The detector can test single panes of glass or multiple panes in a window at a single time, and from a single side.

TGT976 Glass Sample Set

Conduct your sales demonstration effectively by including glass samples to help illustrate the benefits of film over standard glass. Includes 2 clear single pane, 2 clear IG and 2 low-E sets.

TGT978 Laser Thermometer

Reads temperatures of solid surfaces, best when used within three feet of surface. Demonstrate difference once window film is applied to glass with new reading of solid surface. Not to be used on glass. Powered by a 9-volt alkaline battery (included).

TGT2019 Heat Sheet Acrylic Stand

TGT2020 Heat Sheet Demo Card

An Acrylic Stand designed to hold the Heat Sheet Card in place to demonstrate heat transfer.

The "HEAT-SHEET" Temperature Demo Card vibrantly changes color when it encounters heat. To demonstrate the heat-blocking capabilities of your glass or film, use the Demonstration Card in combination with a heat lamp. The visual demonstration makes a great addition to the tangible performance data shown with many of our other sales tools. The demonstration shows a dynamic color change in front of an inefficient window sample while no color change occurs when placed in front of your energy efficient window. The demonstration shows your customers that your window or film will reduce heat transfer that occurs as a result of radiant energy, conduction and convection.

TGT960 Low-E Coating Detector

Detects the presence and location of thermal resistant coatings (LOW-E) used on energy efficient single and dual pane glass. Never requires calibration. Powered by a 9-volt alkaline battery (included).

TGT964 U.V. Meter with Temperature

This meter gives UV transmission percentages, UV power, and temperature. The TGT964 is the most versatile product available for measuring UV. You can measure UV intensities (irradiance), UV Transmission%, and temperature in Fahrenheit and Celsius. Unlike other UV products on the market, the TGT964 is extremely simple to operate. The digital display is continually updated with real-time readings. The TGT964 is powered by a 9-volt alkaline battery (included).

TGT966 V.L.T. and Power Meter

The TGT966 shows the performance of your film and proves to your customer that your product reduces fading by controlling visible light. It calculates visible light transmission percentages, power readings (W/m²), measures visible light spectrum (400-700 NM), and includes a digital thermometer in Centigrade and Fahrenheit. Powered by a 9-volt battery (included).

TGT967 SP1065 Digital BTU Solar Power Meter

This wide spectrum digital meter measures solar radiant energy intensity directly transmitted through glass (or the film-glass combination) in units of BTUs per square foot per hour or watts per square foot. Effective tool showing the relative effectiveness of various films in blocking solar radiant heat. Especially useful for showing how a very dark dyed film may allow far more energy to pass through than a much lighter metallic film. Can be switched to read in metric units. Powered by a 9-volt alkaline battery (included).

TGT968 SP2065 Solar Transmission & Power Meter

Use this meter to evaluate solar performance. It provides excellent resolution, reading low light conditions more accurately than competitors, with no need for adjustments. The easy to read digital display toggles between power and transmission percentage mode. It's small, portable, and convenient to take out in the field. Can be switched to read in metric units. Powered by a 9-volt alkaline battery (included).

TGT973 UV Sentry Meter

Position the meter facing the UV source, such as sunlight or a heat lamp (TGT962), and turn the meter on. Place various materials between the meter and the UV source and the resulting UV Transmission percentage will be displayed. Powered by a 9-volt alkaline battery (included).

TGT977 UV & Solar Dual Transmission Meter

Combines the popular features of the TGT973 & TGT968 into one simple to use meter. Powered by a 9-volt alkaline battery (included).

TGT982 Spectrum Detective Meter

Displays three ratings at a time: UV, Visible Light, and Infrared transmission values. Carrying case included. Powered by a 9-volt alkaline battery (included).

TGT992 LaserLabs M100 One Piece Meter

Used to measure visible light transmission (VLT) on roll down windows. This meter is auto calibrating and is powered by a 9-volt alkaline battery (NOT included).

TGT993 LaserLabs M200 Two Piece Meter

Measures visible light transmission (VLT) on fixed and roll down windows. This meter is auto calibrating and is powered by a 9-volt alkaline batteries (NOT included).

TGT996 AE4600 Solar Gain Low-E Detector

Professional state-of-the-art meter that detects the surface of Low "E" and ranks the SHGC (low, med, high). Case included. Powered by a 9-volt alkaline battery (included).

TGT2034

SS2450 Solar Spectrum Transmission Meter

This device is the most accurate meter to date. It is the only meter calibrated to ISO9050, NFRC300 and EN410 standards. Effortlessly demonstrate six performance characteristics at a time including two IR measurements: UV, VIS, SOLAR, IR 900-1000 nm, and IR 780-1780 nm ensuring the complete picture of a window film's performance. Simply slide the glass sample into the opening and see the resulting values displayed. No additional light sources are needed. Everything is self-contained in a single convenient package to visualize the true performance of a glazing system, this meter is a must.

TGT2035 Tint-Chek TC1800 Automotive Meter

Measures visible light transmission (VLT) on roll down windows. A smaller meter that fits comfortably into a shirt pocket. Tremendous reliability, ignoring ambient light. Calibrated to a NIST traceable standard.

TGT2036 Tint-Chek + TC2800 Automotive Meter

Measures visible light transmission (VLT) on roll down windows. Includes ALL the benefits of the TC1800 (TGT2035) plus features a backlit LCD display making it much easier to read in low light conditions. Reads to the nearest tenth percent for greater accuracy. Calibrated to a NIST traceable standard.

TGT2064 Enforcer II TM1000

The TM1000 Enforcer II is a light weight and pocket sized automotive tint meter. It comes equipped with a coin cell battery that will last for up to 2500 uses and is auto calibrating.
